

# Mirrorfeed Application

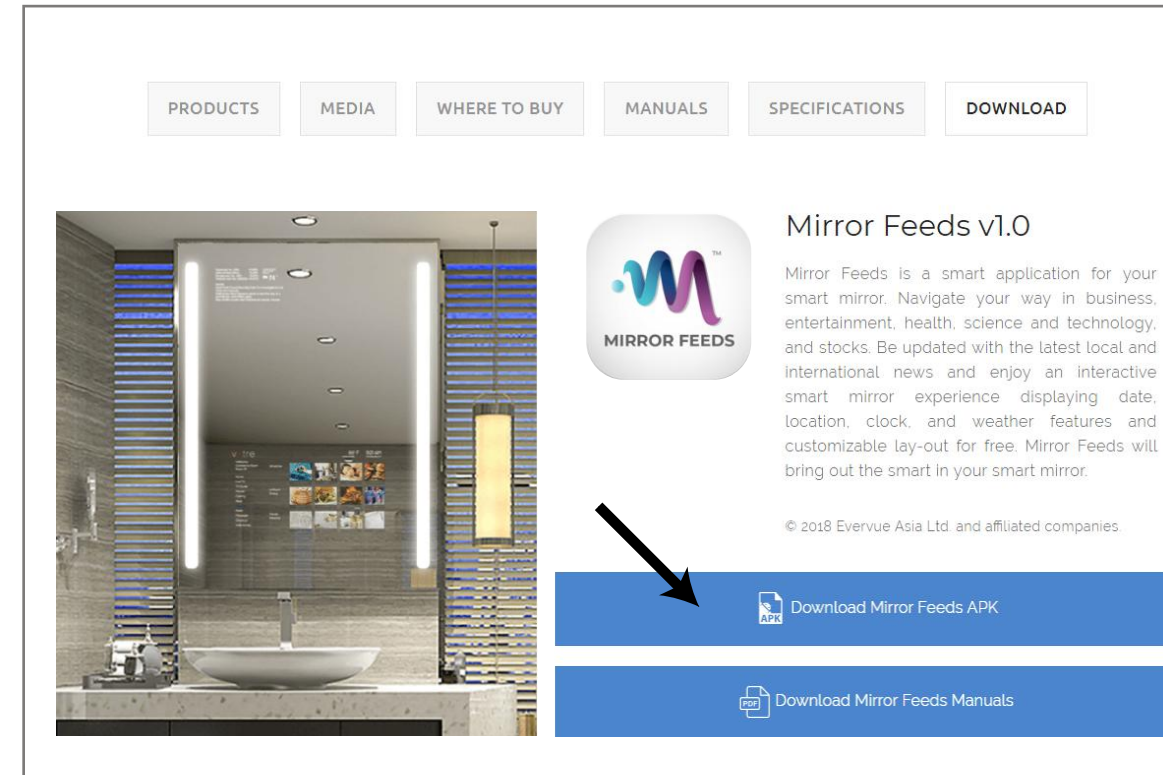

## INSTALLATION MANUAL

(Mirror Feeds is also now available in the Google store.)

### 1 Turn on the 12.1 inch panel

Press the power button on the remote to turn on the 12.1 inch panel.

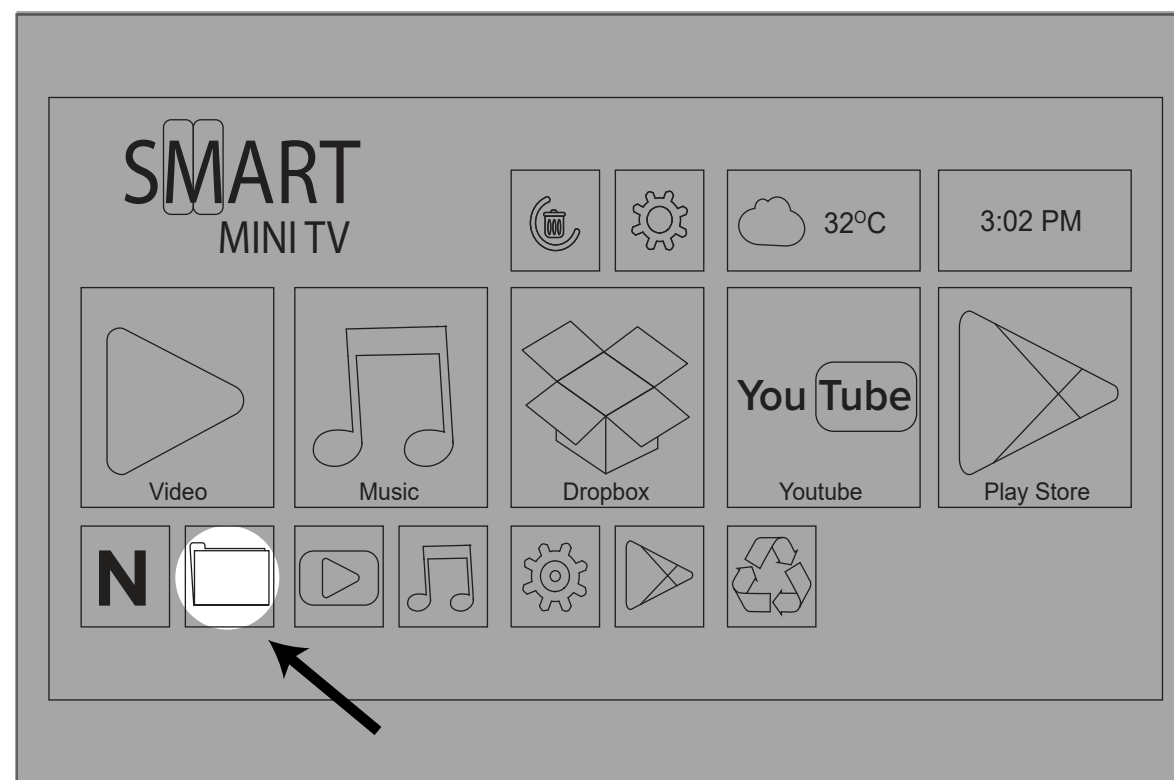

### 2 Go to the MyQaio website

Open the browser and go to [myqaio.com/help-center/#Download](http://myqaio.com/help-center/#Download). On that page, click the Download Mirror Feeds APK button to get the latest Mirror Feeds APK.

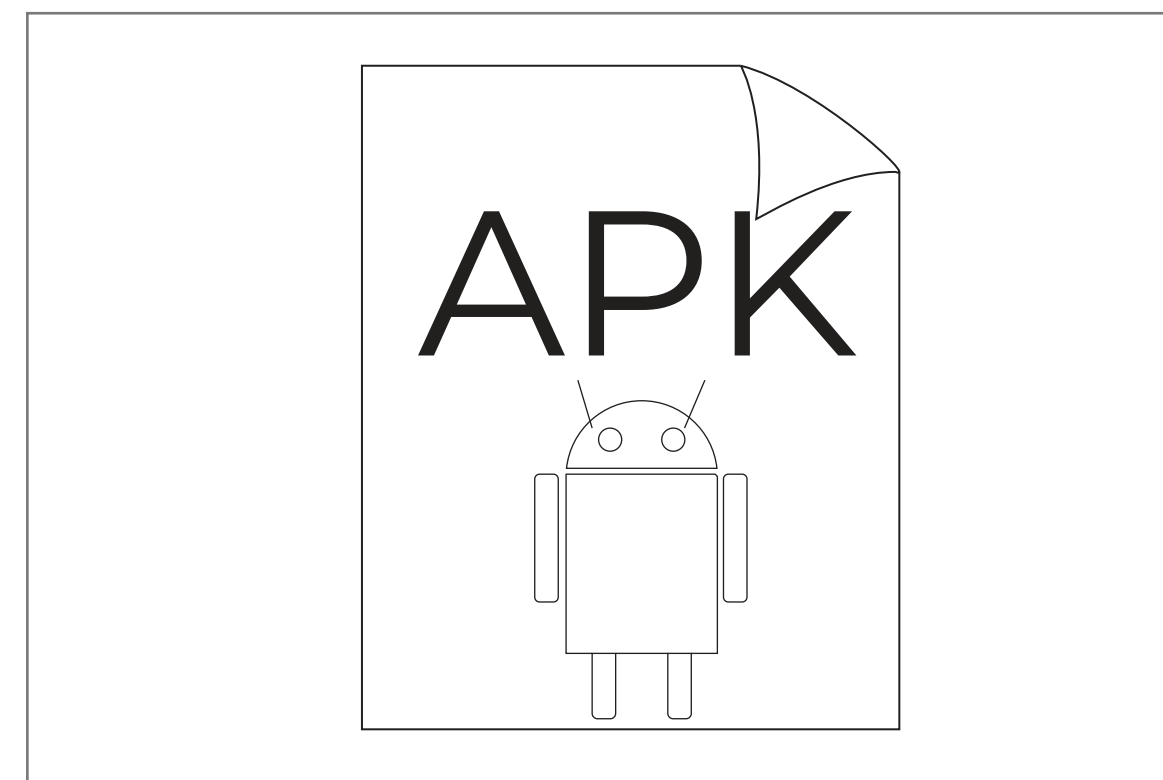

### 3 Download

Download the APK file in the link.

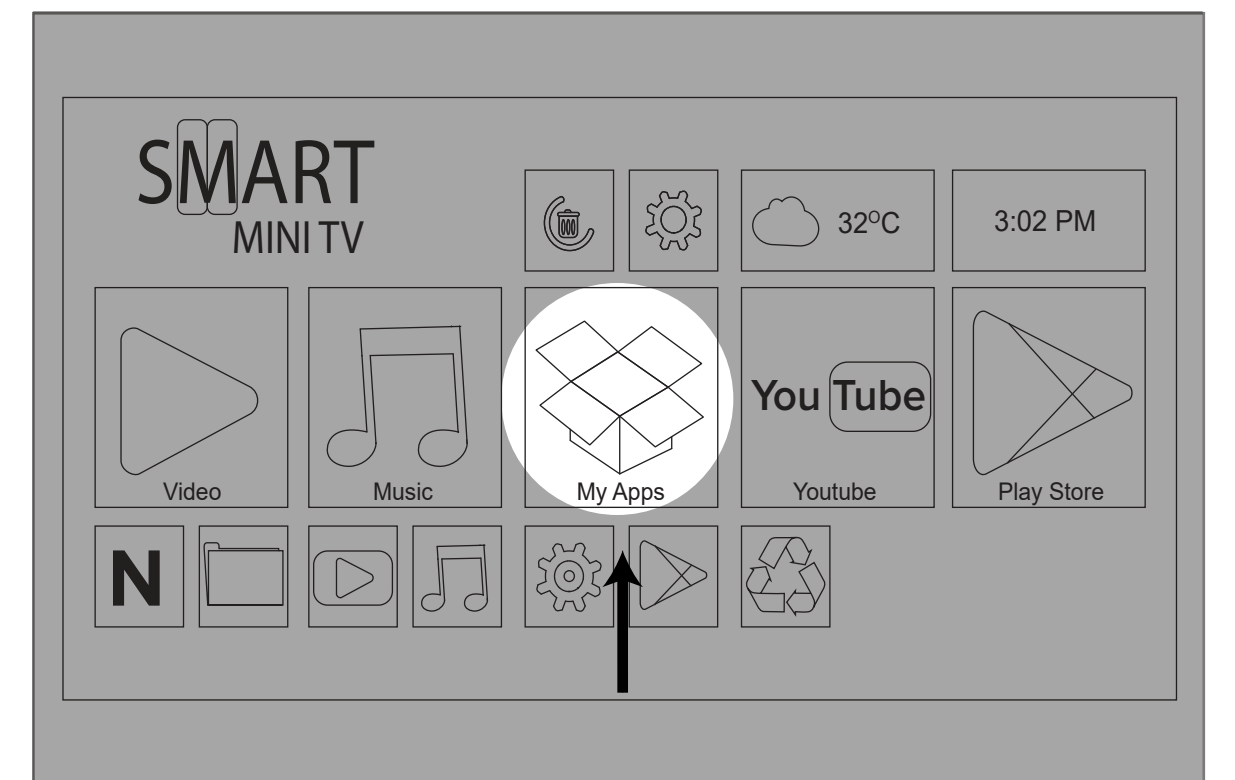

### 4 Go to File Manager

After the download is complete, go back to the main screen by pressing the "ESC" key on the keyboard and then go to "File Manager".

### 5 Install APK

Go to "Local Disk", and then click "Downloads". Find the file "Mirror Feed. apk" and double click it to install.

### 6 Launch

After the installation is complete. Go to back to the main screen and launch the app.
